DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claim(s) 1-6, are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The limitation in claim 1 “the side plates extend upwards, proximal to a knee of a person standing on one or both of the foot plates” specifically limits the claim to particular part of the human body. A claim directed to or including within its scope a human being or attributes of a human being is not patentable subject matter. See MPEP §2105 and 1077 OG 24 (April 21, 1987).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 line 11 recites “the side plates (7,8) extend upwards, proximal to a knee of a person standing on one or both of the foot plates”. This limitation is indefinite since it would be dependent on the size of the person using the device, and the term "proximal" does not have a

Art Unit: 3611

precise definition set forth in the specification. Thus the meaning of the term is completely dependent on a person's subjective opinion. As such, one of ordinary skill in the art could not determine the metes and bounds of the claims.

Allowable Subject Matter

4. Claims 1-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, and 35 U.S.C. § 101 set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 6 November 2008 have been fully considered but they are not persuasive.

With regard to claim 1 being rejected under 35 U.S.C. § 101, applicant has argued that “the limitations recited in claim 1 as a whole, under their broadest reasonable interpretation, clearly do not encompass a human being.” However, the language in claim 1 recites “the side plates extend upwards, proximal to a knee of a person standing on one or both of the foot plates”. Thus the claim clearly recites that a person is standing on the device and his knees are proximal to the side plates. Thus the claim as a whole does indeed encompass a human being.

The amendments made to claim 1 have made the arguments relating thereof moot in view of the new ground of rejection explained above.

Conclusion

Art Unit: 3611

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
